Professional Summary

Frontend Developer with 4+ years of hands-on experience building production-ready web applications with React and Next.js. An Electrical engineering background brings analytical problem-solving to frontend development. Passionate about performance (achieved 98 Lighthouse scores), accessibility (WCAG compliant), and clean, maintainable code. Created and deployed 5 live projects, including a flight search engine with OAuth2 and a full-stack event platform.

Work Experience

Frontend Developer (React/Next.js)

Independent Projects - Nairobi | Sept 2021 - Present

- Reduced page load time by ~30% through image optimization, code splitting, and modern CSS techniques.
- Built and deployed 5 live projects, including a flight search engine (OAuth2, 98 Lighthouse) and a full-stack event platform (Next.js, MongoDB).
- Integrated RESTful APIs for data-driven features like search, filtering, and dynamic content rendering.
- Implemented WCAG accessibility standards with semantic HTML and keyboard navigation across all projects.
- Built reusable component libraries that reduced duplicate code and accelerated feature development.
- Used Git/GitHub with feature branches and pull requests, simulating real-world team workflows.
- Structured projects with clean, scalable architecture separating concerns between components, pages, and utilities

Education

Frontend Development (Self-Taught) | 2021 - 2025

Technical Skills

- Frontend: React, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
- State Management: Zustand, React Context
- API Integration: REST APIs, Axios, OAuth2
- Tools: Git, GitHub, VSCode, Chrome DevTools, Vercel
- Additional: Responsive Design, WCAG Accessibility, Performance Optimization

Featured Projects

- Flight Search Engine | React, OAuth2, Amadeus API → 98 Lighthouse score, 5k+ searches
- DevEvents Platform | Next.js, MongoDB, Cloudinary → Full-stack event platform with 10+ events
- Amazon JavaScript Clone | Vanilla JS, Local Storage → Interactive e-commerce with cart functionality
- Amazon HTML/CSS Clone | Pure CSS, Grid, Flexbox → Pixel-perfect responsive layout with 20+ categories

Certifications

Frontend Development Certification | Sept 2025

An intensive program focused on React, JavaScript, and building production-ready applications with modern workflows.

Professional Foundations Certificate | April 2025

Workplace readiness, communication, and problem-solving in remote-first tech environments.

ALX AiCE AI Career Essentials | Dec 2024

Foundations of AI concepts, real-world use cases, and ethical considerations in AI systems.
